SUMMARY

Diligent student on the hunt for a job! Eager to channel my skills and enthusiasm into advancing a company's mission. Technologically adept with a positive attitude, strong work ethic, and a deep motivation to learn new tools and programs. I'm currently seeking an internship opportunity where I can grow professionally and contribute meaningfully.

SKILLS

Languages: Python, JavaScript, C++, Java

Frameworks: React.js, Node.js, Express.js, TensorFlow, Keras, Scikit-learn

Tools: Jupyter Notebook, Kaggle, Git, VS Code, Eclipse, IntelliJ, NetBeans

Platforms: Github, Hugging Face, Kaggle, Google Colab

Databases: MongoDB, MySQL

CS Core Concepts OOP, DSA, DBMS, Software Engineering

Soft Skills: Problem Solving, Public Speaking, Team Collaboration

EDUCATION

Bachelor of Computer Science Sukkur IBA University Sukkur |
2022 - 2026 (Expected) CGPA: 3.41/4.0

PROJECTS

Smart Crop Disease Detection System

- Built a deep learning web app using CNNs & Streamlit to detect 38 plant diseases from 87K+ images.
- Achieved high accuracy via data augmentation and 5-layer CNN; integrated real-time image upload and prediction.

Task Manager Application

- Developed a full-stack MERN app with user authentication, task CRUD operations, and deadline tracking.
- Designed RESTful APIs and connected MongoDB with Mongoose for data handling.

SUDOKU Game

- Created an interactive Sudoku game in React.js with Tailwind CSS; integrated local storage for progress persistence and Zustand for state management

Hotel Management System

- Built a Java-based system with DBMS integration for guest management, reservations, and transactions.
- Designed GUI and robust database schema to streamline hotel operations.
- Use MySQL for database

Personal Portfolio Website

- Developed a clean, responsive portfolio site using HTML, CSS, and JavaScript to showcase projects and skills.
